## Hello, I'm Reny

My Name Is Reny Kipkoech I'm well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities offering 2 years of related experience.

I'm dedicated to improving skills through hands-on learning and development work. Proficient in Android App Development. Adept at using C++,Java,Kotlin, Flatter, PHP LARAVEL, HTML5, JavaScript,SQL and other programming languages to produce clean code. Well-organized and collaborative team player with strong communication and analytical abilities.

I'm well-versed in analyzing user needs and developing software to precisely meet diverse needs. Demonstrates mastery of multiple programming languages and proactively keeps up with industry trends. Driven to wear many programming hats with expertise in creating everything from new applications to new operating systems.

## EXPERIENCE

**INFORMATION TECHNOLOGY CONSULTANT**

Jan 2020 - Present

**Freelancer**

1. Implemented and managed operating systems and software, security systems and intrusion detection systems.
2. Conducted research on network products, services, protocols and standards for network procurement and development efforts.
3. Instructed proposal team in use of computer software graphical elements, page design and aesthetic standards.
4. Designed user interfaces that engaged multiple senses and produced immersive experiences.
5. Provided code maintenance and system upgrades to maximize performance.
6. Played major role in layout modifications to improve functionality.
7. Collaborated with engineers, system analysts, and programmers regarding project capabilities and limitations to deliver optimal functionality.
8. Responded to support requests from end users and patiently walked individuals through basic troubleshooting tasks.
9. Digitally edited photos to enhance appearance.
